Summary of Presentation

What should organizations consider when evaluating third-party providers for services?

With organizations evaluating resources and capabilities internally and out-sourcing services to third parties, it is important to evaluate the possible impacts to data, security, personnel, and service levels. The presentation will cover topics for consideration when using out-sourced services and third-party providers and possible risks.

Speaker Bio:

Greg Schu is a partner with McGladrey's technology risk advisory services practice. He provides organizations with IT risk management, compliance and risk advisory services and solutions, assists them with business process analysis and evaluates business and systems controls. Greg brings his experience as a consultant for financial audit and compliance requirements for Sarbanes-Oxley (SOX), Payment Card Industry (PCI), Service Organization Controls (SOC), and Health Insurance Portability and Accountability Act (HIPAA) standards. Greg is a CPA and CISA, based in the Minneapolis office.
