SPOTlight on Security is a speaker series workshop that shines light on Safeguarding Professional/Personal assets from Ongoing Threats. The event is intended to be a series event to promote women in security and provide an educational platform to educate participants from various companies.

This kick-off event, 'Staying Cyber Smart' presents a 'hands on' perspective and proven practices for staying safe online. Some prominent women leaders from the security industry will present on the ever evolving threats of a cyber attack and equip attendees with ways to reduce their vulnerability and increase their awareness.
