

Opening Position: Senior Consultant, Cyber Risk Advisory

Job Description

At BARR, our mission is to help create a more secure world — where organizations of all sizes — are empowered to anticipate, navigate and act upon challenges related to risk, cybersecurity and compliance. We believe complicated mandates shouldn't be a barrier to an organization and the work you love to do. That's why we take the complexity out of security and compliance and help create an infrastructure built on accountability and transparency. If you're a driven, forward-thinking individual dedicated to client success, then we want to hear from you!

We are seeking a **Senior Consultant, Cyber Risk Advisory** to support the Director of Risk Consulting in strengthening existing client relationships and developing new business opportunities. The Senior Consultant serves as the secondary point of contact for planning and executing information technology audits, client risk assessments and GRC Advisory engagements for our rapidly expanding client portfolio. As such, the Senior Consultant is charged with assisting in various facets of the core business including, but not limited to, documentation assistance, project management, participation in sales meetings, proposal writing, audit procedures and other consulting engagements.
