

the Greater *Kansas City Chapter*

A Message from the President

As President of the Kansas City Chapter, I want to thank each and every one of you for making 2004-2005 a successful year. Not only has our local membership grown, but the attendance at the monthly meetings has been beyond my expectations. Just look around at each meeting and you'll see that we've outgrown many of the restaurants in the area! The locations for our last two meetings will certainly accommodate everyone who wishes to attend, so please don't forget to register, and bring as many guests as you can round up.

The beginning of spring is traditionally a very busy time for ISACA, and this year is no exception. Not only do we have two meetings left, but the CISA review course will be starting soon as well. It's hard to believe that our General Business Meeting is just around the corner, but in order to keep the momentum going, it's time to start planning for next year. As the IT Audit profession continues to grow, now is the perfect time to get involved and make an impact. You can do that by volunteering for the 2005-2006 ISACA year. We have a few positions opening up on our Board of Directors, and I invite anyone who is interested to contact me for more information. On behalf of the Board of Directors, thank you again for your participation!

Jennifer Sullivan, CISA
2004-2005 President

Tuesday, March 8th.

North America CACS

24-28 April 2005; Las Vegas, Nevada
44 CPE Hours

North America CACS is the world's leading conference on IT governance, control, security and assurance. This year's keynote speaker is William J. Powers, associate director of inspection, Public Company Accounting Oversight Board (PCAOB), who will speak on "Zen and the Art of IT Auditing." Powers will provide a thought-provoking start to the conference with his perspective on the critical role of IT auditing and the challenges facing the profession. North America CACS is grounded in current research and features enhanced coverage of compliance issues, including Health Insurance Portability and Accountability Act (HIPAA), Gramm-Leach-Bliley Act (GLBA), Sarbanes-Oxley and the California Privacy Law; control issues, including applications of COBIT; and information security issues, including threat analysis, vulnerability management and cybercrime.

ISACA Training Weeks

6 – 10 June 2005; Baltimore, Maryland
38 CPE Hours

Training Week events (www.isaca.org/trainingweek) include in-depth coverage of the most important industry topics by world-renowned presenters, networking opportunities and valuable continuing professional education hours. Additional upcoming Training Week events for 2005 include:

- 6-11 November 2005—Chicago, Illinois
- 5-9 December 2005—Scottsdale, Arizona

Sarbanes-Oxley Symposium

29 April 2005; Las Vegas, Nevada
7 CPE Hours

To prepare IT professionals and others responsible for internal control and the quality and integrity of information generated by IT systems, a critical requirement of the US Sarbanes-Oxley Act, ISACA is excited to present this unique and comprehensive symposium focusing on IT controls. Topics to be discussed include adoption of CobiT as an integrated IT control approach, assessment of significant deficiencies and material weaknesses, implications of the act on outsourcing, the importance of IT governance, how to leverage the compliance effort, the significance of company-level controls, gearing up for Sarbanes-Oxley year two, and US Securities and Exchange Commission (SEC) and PCAOB issues. Please visit www.isaca.org/soxsymposium for details.

CISA and CISM 2005 Exam Registration

The final registration deadline for the 2005 exams is March 30.
Register online and save \$35.
